*The White Women, also known as the handmaidens of Death serve to bring the Dying into Death's Domain. They appear in numbers of 1d6 or less when a creature is struggling to hold life in its grasp, they also seem to congregate on battlefields or near places of execution. The white women have successfully taken thousands, and hundreds more of those who were not dying, however tried to prevent the seizure of a loved one. For what purpose are these people taken you may ask, what use does Monsieur Death have for the dying? There are many opinions, bringing them to a better place is a popular one, however I believe the truth to be much more grave, I think Death is building a private army, waiting patiently to unleash his horde upon the overworld.*
